There's a certain sitcom missing from page 1. Perhaps the most famous of all. Like most sitcoms, it had some very flawed episodes -- but we can fix it! Follow the below instructions to get an alternate (and improved!) synopsis for arguably of the worst episode of that show.

1. Rearrange the ICONS in order from lowest to highest value and place the corresponding TRIGRAMS (in that same order) in the **darker** shaded boxes below.
2. Rearrange the LETTERS in order from lowest to highest value and place the corresponding TRIGRAMS (in that same order) in the *lighter* shaded boxes below.
3. The resulting sentence will be an improved synopsis of the aforementioned improved sitcom episode.

Note: Not all LETTERS and ICONS are used for this step of the puzzle.
